LAST MESSAGE OF PAUL CZOLGOCZ TO HIS SON AT AUBURN.

In Effect. "Your's Is the Responsibility and You Cannot Hope to Escape the Punishment."

MUTILATION OR THEFT EXPECTED IF TAKEN TO CLEVELAND.

Leon F. Czolgocz, assassin of President McKinley, has to live is reckoned by hours now, but there has been no relaxation of the stringent rule under which the prisoner has been secluded since his confinement. Auburn prison was closed to-day to any one who sought the assassin, and so it will remain until the prisoner has paid the penaity which the law exacts. In fact, the plan to deprive Czelgocz living of any notoriety has been extended to deprive Czolgocz dead of notoriety.

Immediately after the execution the BANDIT'S DESPERATE FIGHT WITH clothing of the murderer, with the vast accumulation of mail that came to the prison for him, will be burned, and, if possible, the request of the dead man's relatives for his remains will be evaded. It is feared that Supposed to Be One of the Muchthe removal of his body to Cleveland would lead to scenes of an unfortunate nature, and the prison officials are very anxious to avoid anything of the kind. The plan of burning the clothing and letters of the murderer will prevent the exhibition of relics by those who pander to the morbid.

The hour of 7, on Tuesday morning, is the

time set by Warden J. Warren Mead for the execution. Various reports changing that time have gone through Auburn today and to-night. One rumor places the time at 7 o'clok to-morrow, but that is disnoon, and none of the regularly summoned witnesses has yet reached Auburn. amined to-day and tested by State Electrician E. F. The general practice is to read this paper some time after the commencement of the period for execution designated by the court. That period in this case commenced at midnight

to-night. The firm purpose of Superintendent Collins and Warden Mead to avoid even the appearance of sensationalism in this case s demonstrated by an incident in connection with one of the principal witnesses. Dr. Carlos F. McDonald, of New York city. a former president of the state lunacy commission, is to be the principal attending physician at the execution. He was one of the alienists who examined Czolgocz in Buffalo and pronounced the prisoner sane. He has been very anxious to take away brain for purposes of microscopical examination. A few days ago Dr. McDonald had a talk with Superintendent Collins and asked him to allow him after the autopsy to take the brain to New York city for examination. Mr. Collins said to him: "Doctor," I have planned to make this

execution an example of mystery that will forestall any attempt at sensationalism. I cannot allo. anything to go away from the prison that will in any way continue this man's identity for notoriety. You may stay at the prison for a week if you will and examine any portion of the anatomy you please, but my present plan is not to allow any portion of the man, his clothing or even the letters he received to leave this place.' Dr. McDonald replied: "I would like to have taken the brain away, but I am frank to say that you are absolutely right in the matter. If I desire to make any examination I will do it in the prison.'

The plan of Superintendent Collins is heartily acquiesced in by Warden Mead. and it is understood that an unrepealed law has been found that will allow the warden to refuse any request for Czolgocz's body from even his relatives and will give the warden the privilege of disposing of it. In that event within two hours after the execution, unless Dr. McDonald cares to make an analysis of the brain, Czolgocz's body, clothes, letters and everything reminiscent of him in the prison will be disposed of. The body of the assassin will be buried in quicklime and the clothes, letters and packages will be consumed by fire. And this is not all. Warden Mead, with Superintendent Collins's approval, has decided that for the next thirty hours preceding the execution of Czolgocz not one word of his condition or actions shall be given out from the prison. In other words, the man, beginning from midnight, is practically dead so far as the public is con-

At the execution on Tuesday Dr. Carlos McDonald, of New York, and Prison Physician Gerin will be the attending physicians, and the priests, if any are requested by Czolgocz, will be the two Polish ones who heretofore have visited him. alty for his terrible crime in Auburn Prison next Tuesday morning. In an interview at Grace Reformed Church as usual.

this afternoon the elder Czolgocz was asked what he had to say finally to his unfortunate son. The old man's eyes filled with

tears as he replied, deliberately: "Tell Leon that I hope that he may rest ffi peace, that he will become reconcued to God and will meet his end bravely. Tell him that as much as I and all of our family regret his most unhappy plight we can do nothing to interfere; that he alone is re- NOW HOLDING THE INTEREST OF sponsible for his unfortunate position and he must meet his punishment as a consequence."

Further conversation ellcited the information that the purpose of the visit of for the disposition of the body after the law's mandate has been carried out. Up to this afternoon no communication had been received by the elder Coolgocz from Waldeck, and this is taken to mean that the father's presence is not desired at the death scene. The entire arrangements of the after part of the law's course are in take is a mater of uncertainty. The expense of conveying the body from Auburn to Cleveland is one of the considerations that causes hesitancy in the announcement of definite final arrangements.

Paul Czolgocz, the father, stated that there was some fear of mutilation or other undesirable occurrence at some time or other if the body should be brought to Cleveland immediately after the electrocution. This fear has led to the consideration of cremating the body at Buffalo or some other city where a crematory is available. Some anonymous communications to the Czolgocz family have mentioned the fact that the body might be available as a scientific object to medical people and would bring a good sum of money, but further than mere hints no definite offer has been made. It was stated that such an offer would be distasteful to the family of the assassin and would not be considered. Fear that the body might be stolen if buried in the usual manner is also a reason for cremation being favored.
